**Fleet Applications and Accessories for the DiamondBack Truck Covers:
The STRONGEST most secure covers your company can buy**

THE DIAMONDBACK SE TRUCK COVER:

FUNCTIONAL SECURITY

In the past, the decision to put a cover or cap on your company trucks came down to the choice between security for your gear and use of your trucks. Now, with the DiamondBack SE, you can have both.

SECURITY - GET THE PEACE OF MIND TO LEAVE YOUR TOOLS IN YOUR TRUCK WITHOUT THE FEAR OF WEATHER DAMAGE OR THEFT.

WEATHER PROTECTION – The DiamondBack SE seals to your bed with a neoprene compression gasket that keeps your tools dry. A center panel gutter ensures no water enters through the hinge points.

THEFT PROTECTION – Your company has invested thousands in your tools and equipment. Protect them with the strength of the .080" thick Aluminum diamond plate (compare to most toolboxes at .063") of the DiamondBack SE. The cover cannot be cracked or cut open like other covers and locks down, using $\frac{3}{8}$ " galvanized STEEL LOCK RODS, which lock under the bedrails of your truck.

USE OF YOUR TRUCK - DIAMONDBACK TRUCK COVERS ALLOW YOU TO HAUL MORE WITH THE COVER ON THAN YOU CAN WITHOUT IT.

ACCESS – Front and rear bed access means NO MORE CLIMBING in and out of your truck to get your tools.

TALL CARGO – For tall cargo such as refrigerators or generators the cover folds in seconds to allow for open bed space.

TOP-LOADS – The DiamondBack SE boasts a 400 LB TOP-LOAD CAPACITY allowing you to haul items on top of your cover or use it as a platform for standing on or working from.

REMOVABLE – Need an open bed? The cover can be removed by one person in minutes. Individually detaching panels weigh only 25-35 lbs. a piece and slide off easily for quick removal or assembly.

COST EFFECTIVE - DIAMONDBACK TRUCK COVERS CAN SAVE YOUR COMPANY MONEY ON YOUR TRUCKS AND EQUIPMENT.

SERVICES – Stop paying high wages for loading and unloading tools daily because your beds are exposed and parked outside overnight. The DiamondBack SE enables you to store all your gear securely, 100% of the time.

PURCHASING – Why pay for more cab space to keep your tools safe? Save money with a smaller cab and the DiamondBack SE Truck Cover.

FLEET OPTIONS AND ACCESSORIES:

DIAMONDBACK CARGO CLEATS

APPLICATIONS:

The DiamondBack SE Truck Cover comes standard without cleats for a smooth, sleek look. For top-hauling capabilities add a four-pack of cleats to your cover or add eight cleats for more tie down locations.

SPECS:

- 4 High-Strength Cargo Cleats
- Stainless Steel Hardware
- Template included for correct alignment and easy installation

THE DIAMONDBACK CAB GUARD

APPLICATIONS:

The DiamondBack Cab Guard provides protection for your cab when hauling top-loads while maintaining rear visibility. The Cab Guard bolts to your DiamondBack SE Truck Cover and lifts with the cover, maintaining access to your bed.

SPECS:

- 1" Aluminum Tube Frame
- Heavy-Duty Expanded Aluminum Body
- Low Profile Maximizes Rear Visibility

THE DIAMONDBACK LADDER RACK

APPLICATIONS:

The DiamondBack Ladder Rack is a four post, steel rack designed to allow opening and closing of the cover, while transporting ladders or lumber overhead.

SPECS:

- 7 Ga. Steel Base Plates
- 1 5/8" O.D. 14-Gauge Steel Uprights
- 6061-T6 Aluminum Cross Bars (removable)
- 500 lb. load capacity

THE DIAMONDBACK SIDE TOOLBOXES

APPLICATION:

DiamondBack Side Tool Boxes bolt to the underside of the center panel of the DiamondBack Truck Cover. They provide convenient, reachable access for hand-tools, nails, screws and other odds and ends. Two boxes come in each set and can be mounted on the same or opposite sides of the truck. Get two sets of boxes to fill each corner of your bed with storage bins you can easily access.

SPECS:

- .100" aluminum diamond plate box

DIMENSIONS:

- 24"L x 9"W x 7"D (Longbed)
- 18"L x 9"W x 7"D (Shortbed)
- 15"L x 9"W x 7"D (Midsize Truck)

THE DIAMONDBACK SHOVEL STRAPS

APPLICATION:

DiamondBack Shovel Straps are great ways to maximize space above your wheel wells, keeping shovels and slender tools from bouncing around in your bed.

SPECS:

- .100" Aluminum Diamond Plate Straps
- Rivets to Side Tool Boxes
- Must be used with Side Tool Boxes

THE DIAMONDBACK HOT STICK/RANGE POLE HOLDER

APPLICATION:

The DiamondBack Hot Stick/Range Pole Holder is the perfect product for surveyors or electric workers. This convenient storage takes up almost no bed space and protects your equipment while providing quick access to your gear.

SPECS:

- 4" PVC Piping
- .100" Diamond Plate Straps

THE DIAMONDBACK LIGHT BAR

APPLICATION:

The DiamondBack Light Bar mounts directly to the cab panel of the truck cover, providing the ability to mount lights without drilling into the bed of the truck.

SPECS:

- 3/16" Aluminum Plate Ends
- 1.25" Schedule 40 Aluminum Shaft
- Top Plate can be cut to Light Size

NEED TO HAUL MORE?

While the Diamondback SE Truck Cover, with its 400 lb top-load capacity is suited for commercial use, some businesses need to haul more loads. For **Heavy-Duty** applications, the DiamondBack HD, with a whopping 1600 lb top load capacity, looks and functions the same as the DiamondBack SE but with an additional 1200 lbs of payload and 12 high-strength cargo cleats. The Diamondback HD provides superior security with .100" thick aluminum diamond plate making it virtually impenetrable. The cover offers full bed access and can work with all Fleet Solutions accessories. Ask your dealer or a DiamondBack Representative for more information on the DiamondBack HD Truck Cover.

DIAMONDBACK AND KARGO MASTER® TEAM UP TO BRING YOU A FULL FLEET SOLUTION:

If your jobs require you to haul 16-24' lumber, pipe, or ladders, a full over-the-cab ladder rack may be what you need. DiamondBack Truck Covers has teamed up with Kargo Master® Ladder Racks to bring you a contractor grade, over-the-cab ladder rack that works with the DiamondBack Truck Covers. Ask your dealer or a DiamondBack Representative for more information on how you can get a Kargo Master® Ladder Rack for use with your DiamondBack Truck Cover.
