Go Power!™ Pure Sine Wave Inverters

The Go Power! pure sine wave line of inverters produce an exact replica of AC power. Go Power! pure sine wave inverters are the ultimate choice for equipment that demands a clean, pure source of AC power. Our pure sine wave inverters are guaranteed to run any devices within their wattage range.

- Lightweight electronic design • High performance
- Ease of installation • Dual AC outlets
- Exceptional dollar/watt value • 2 year warranty

MODEL	OUTPUT (watts)	SURGE
GP-SW150-12	150 W	260 W
GP-SW300-12	300 W	450 W
GP-SW600-12	600 W	860 W
*GP-SW1000-12	1000 W	2000 W
*GP-SW1500-12	1500 W	2000 W
*GP-SW2000-12	2000 W	4000 W
*GP-SW3000-12	3000 W	6000 W

*Remote option also available
24 volt models also available

The GP-SW-Remote for the GP-SW1500

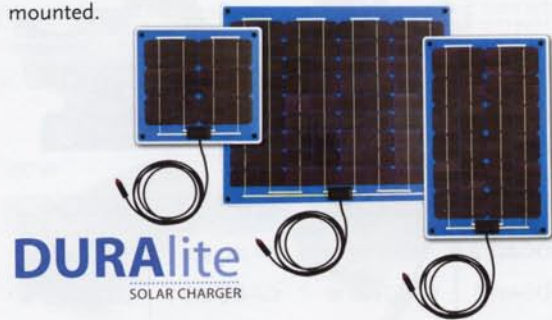

The GP-SWR-B for the GP-SW1000, 2000 and 3000

Go Power!™ DURALite Solar Chargers

These slim, lightweight semi-flexible and portable solar trickle chargers are an excellent solar solution for any vehicle that remains parked for a long period of time. DURALite solar trickle chargers can be put out in the sun to maintain a battery charge, and then stored for later use, or they can be permanently mounted.

MODEL	OUTPUT	AMPERAGE
GPDL-5	5 W	0.3 amps
GPDL-10	10 W	0.6 amps
GPDL-20	20 W	1.2 amps

Go Power!™ Smart Chargers

Go Power!™ chargers, compact and powerful, offer fast and accurate battery charging at a reasonable cost, and use state of the art switch-mode technology.

- Plug and play
- 2 year warranty

GPC-30*	30 amps
GPC-45*	45 amps
GPC-55*	55 amps
GPC-75*	75 amps

*GPC-Smart Control - Converts Go Power!™ chargers to a ree-stage smart charger.

Reliability

Go Power!™ Modified Sine Wave Inverters

Go Power!™ modified sine wave line of inverters are an economical solution to your power needs. Lightweight and simple to use, Go Power! modified sine wave inverters can be used in a wide range of fleet and utility vehicle applications. They will operate most small devices including drills, sanders and grinders.

(Not all devices are designed to run off of modified sine wave. Please consult a Carmanah sales rep to choose the right inverter for your needs.)
